SIGNATURE COLD BREWS

Cold brew isn't just iced coffee.
We brew it slow - 18 hours or above of cold extraction that pulls out deep flavour without the sharp bitterness. What you get is smooth, bold coffee that hits differently. At Carbon, we take that base and remix it with unexpected flavours, turning a simple brew into something that actually deserves a page on the menu.

The Original *apricot & milk chocolate notes/ brewed for 28 hours*	290.00
Whiskey Barrel *apple & bourbon notes/ brewed for 18 hours*	320.00

Restaurant India News: Carbon Jaipur Expands with Bold, Dark-Themed Café Format

BY - Saptopriya Ghosal
Junior Writer
Feb 20, 2026/ 134 / 4 MIN READ.

Carbon Jaipur has positioned itself as an alternative to format-heavy specialty coffee spaces. *At a time when technical jargon, bean sourcing narratives and complex brewing processes increasingly dominate café conversations, Carbon has chosen to simplify its proposition.* The brand's focus remains on taste, accessibility and a format that lowers entry barriers for everyday consumers.

Carbon Isn't a Coffee Shop. It's a Mood

In a city saturated with cafés, **Carbon Jaipur** emerged from a quiet rising. While Jaipur had no shortage of coffee spots, few challenged the familiar or reimagined how a café should feel. At a time when coffee was being buried under jargon, bean origins and intimidating processes, Carbon chose to step back. Built on the belief that **great coffee doesn't need a lecture**, the brand focuses on **taste**, **approachability** and spaces that invite people in **without pretence**.

Named after one of life's most fundamental elements, **Carbon** reflects a philosophy rooted in **simplicity**. Essential, grounded and powerful in its rawest form, the name mirrors the brand's identity — **dark**, **bold**, slightly **rebellious** and unapologetically **different**. From the start, Carbon was never meant to blend in, but to feel **effortless yet striking**, **experimental yet comfortable**.
